## Confirmation of Associated Partnership in ENROPE

---

Dear Elona Toro,

With reference to your letter of intent, dated February 19, 2018, we are happy to welcome **The University of Tirana** as an Associated Partner to the Erasmus-Plus project ENROPE (European Network for Junior Researchers in the Field of Plurilingualism and Education). The project has been granted by the European Commission under the contract number 2018-1-DE01-KA203-004253 for a running time of three years (01.09.2018 – 31.08.2021).

**The University of Tirana** is invited to become part of ENROPE's professional network. Subscribing to the project's newsletter at <https://enrope.eu/news> will allow you to stay informed about ENROPE's ongoing activities.

Members of your organization are welcome to make use of selected e-learning and collaboration tools as they become available on the ENROPE online platform and to take part in selected online training modules offered as part of the project's Intensive Study Programme.

Moreover, we invite applications by junior / early career researchers (PhD or Post-doc) for each of ENROPE's annual Intensive Study Programmes. We will notify you about calls for applications ahead of time. Please be aware that participants from Associated Partners will have to seek their own funding.

In becoming an Associated Partner, **The University of Tirana** agrees to take an active role in the promotion of the ENROPE project and in assisting in its implementation and long-term development. We appreciate your commitment to introduce junior/early career and senior researchers in your institution to the project itself and to the opportunities available through ENROPE. Also, we'd thank you for promoting ENROPE within your professional networks and by cross-linking the project's online platform.

**The University of Tirana** is listed as Associated Partner on the project's website: <https://enrope.eu/partners> .
