COURSE SUMMARY AND LEARNING OUTCOMES

General Course Objectives: To enable the practical application of theoretical knowledge acquired during academic studies in a real work environment. To develop students' professional, interpersonal, and organizational skills in line with their career goals. To create a bridge between higher education and the labor market, helping students independently navigate their career paths.

Specific Course Objectives:

1. To equip students with the ability to search for and reasonably select an internship position related to their field of study.
2. To promote the development of professional competencies through concrete tasks in the workplace (writing, communication, planning, analysis, etc.).
3. To strengthen teamwork, time management, and effective communication skills with colleagues and supervisors.

Expected Learning Outcomes:

1. The student is able to identify the needs and professional demands of the field in which the internship takes place and actively engage in work processes.
2. The student demonstrates significant improvement in professional skills such as communication, organization, critical analysis, and problem-solving in a work environment.
3. The student prepares a reflective and analytical report on the internship experience, highlighting the benefits, challenges, and their personal and professional development.
